

Tail Journal

TOP SECRET

My Fellow Agent!

*Use this journal to **keep track** of the subject you are spying on. It will give you great insights in daily routines, and it'll help you figure out where spying activities (like marking signposts, dead letter drops, brush contacts, etc.) are taking place. The journal will be a **treasure trove** of information, so it's of the highest importance that you keep it **confidential**. I cannot stress this enough!*

*So, happy tails. And make sure you're not **discovered!***

*Be safe,
Mr. E*
